## It's Your Wedding... Don't Miss It

*A string quartet softly fills the air with classical music. The mothers are wearing elegant gowns. After being escorted to their seats, they light two candles adjoining the unity candle. The man of your dreams walks to the center aisle and takes a deep breath. Your best friends carefully march to the front and await your arrival. Sighs fill the air as your niece, the most adorable flower girl the world has ever seen, drops rose petals on a white runner... and you're not even in the room. You are standing in the hall with Dad getting ready to make your entrance. Without a quality wedding video, you will have missed important moments that you have been planning since childhood.*

Filming also includes scenes of the couple walking hand-in-hand, embracing, and being playful with each other. This could very well be the most treasured addition to your wedding video! .....\$500

A "Photo Montage" video presentation uses up to a total of 40 pictures or 10 minutes of video (VHS or 8mm) or a combination of both. Background music is added as the images dissolve from one to the next throughout the presentation. The photographs for the Photo Montage should include those of the bride and groom as infants through adults and culminate with the courtship and engagement. The Photo Montage makes a great presentation at the rehearsal dinner or the reception.\*
